

**New Jar!**

## *Jams, Jellies, Spreads & Butters*

As part of our ongoing effort to provide quality products that promote good stewardship and customer loyalty, we are transitioning our 10 ounce Walnut Creek Jams, Jellies, Spreads, and Butters to a new jar. The new jar is wider at the mouth, providing easier access to the product by consumers, and is significantly more stable when stacked on a shelf. With the new jar size, we have revised the ounces on these items to 9 from 10.

We anticipate having all of these items transitioned within the coming months.

**Easier access with  
larger mouth**

**Stout shape allows  
for easier stackability**

**Now holds 9 oz  
of product**
